

MY UNIT

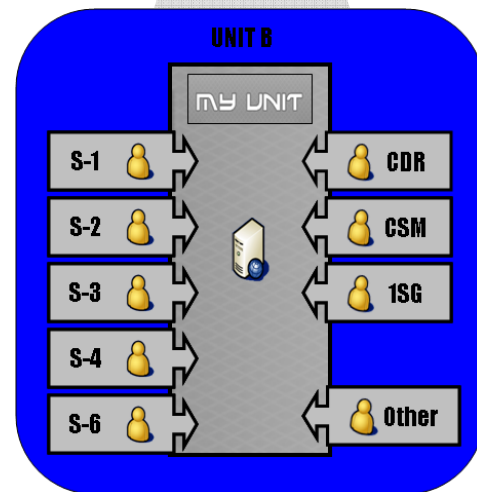

MISSION: To provide the US Army a web-based, deployable repository of unit level information which fulfills the requirements of the commander and his staff – allowing a dynamic exchange of information and a unity of effort.

FEATURES

- Integrates staff functions and unit operations– including assignments, duties, qualifications, and licensure.
- Extensive automated records and reports for the S1, S2, S3, S4, S6, and the Chaplain.
- Manages units of any component, branch, or size.
- Supports both garrison and tactical operations.
- Easy to use– no training required!
- Allows multiple logins for members but minimizes data visibility through page based security.
- Fully integrated FRG system to include family members, volunteers, and family activities.
- Manages Weapons, Masks, Vehicles, and Manifests.
- Contains support for USR, Training, Exercises, Briefings, Licenses and more!

For your soldiers,
For your leadership,
For your self...
